

Going Green

The Green Mountain Suites Hotel is committed to protecting the environment, the health and safety of our associates, and the community in which we conduct our business. It is our policy to seek improvements throughout our business operations to lessen our impact on the local and global environment by conserving energy, water and other natural resources: reducing waste generation; recycling and purchasing recycled products; and reducing our use of toxic materials. We are committed to pollution prevention, continual improvement and meeting or exceeding all environmental regulatory requirements. Please learn about our Nutura Green bath amenities and our Water Conservation program in this directory.
